Professional Reference List

<i>Reference</i>	<i>Relationship</i>	<i>Years Known</i>
Milan Lathia Program Manager Engineering Enterprise Center Microsoft Corp One Microsoft Way Redmond, WA 98052 Office: (425) 704-8435 milanl@microsoft.com	Colleague Milan and I had a software engineering class together. Later I obtained a job working for the same company as Milan. Milan did training with me as well as worked on various work projects with me. He won award for service at MTU, as well as started Blue Marble Security enterprise, and obtained 2 degrees from MTU in Computer Engineering and Computer Science. Milan can attest to my abilities to handle real world work situations.	5
Bill Francis Operations Manager Houghton Innovation Center SHAFI Inc. 101 West Lakeshore Dr. Houghton, MI 49931 Phone: (906) 482-8138	Supervisor Bill was in charge of the Innovation Center which was part of a vision guide robotics company I worked for. Bill can attest to my ability to take on a problem and solve it quickly. He also knows how I can function within a team environment. Bill and I were hired at the same time and we did a lot of training together initially. Before Bill came to the company he was a professor at Michigan Tech.	3
Linda Ott Department Chair and Professor Michigan Tech. University 1500 Townsend Dr. Houghton, MI 49931 Office: (906) 487-2209 linda@mtu.edu	Professor/Supervisor Dr. Ott was my professor for my Software Engineering class. I have also helped Linda many times for Computer Science related activities such as: open houses, teaching summer youth, bash at the big house, tours of the Computer Science building, and more.	6
Charles Wallace Associate Professor Michigan Tech. University 1500 Townsend Dr. Houghton, MI 49931 Office: (906) 487-3431 wallace@mtu.edu	Professor Dr. Wallace is my instructor for software quality assurance as well as senior design. He can explain my ability to work within a group. Throughout the semester in software quality assurance we had multiple group projects with separate group partners each time. In senior design we had multiple departments interacting in the completion of a crane for the Navy. I also did some undergraduate work for Dr. Wallace as a summer job.	5
Bill Scott Vision Systems Application Engineer CEC Controls 50205 Dennis Court Wixom, MI 48393 Office: (248) 709-0375 bscott@cecontrols.com	Colleague Bill has been a friend since childhood. We have worked on numerous projects, such as running a musical artist promotion company, to design websites, to making video games on our graphing calculators. We also worked for the same company at one time in the field of vision guided robotics.	15

<p>David Poplawski Associate Professor Michigan Tech. University 1500 Townsend Dr. Houghton, MI 49931 Office: (906) 487-2331 pop@mtu.edu</p>	<p>Supervisor/Professor/Faculty Advisor Dr. Poplawski has been a professor of mine for two separate classes. He was my Supervisor when I was a lab coach at MTU, and is the faculty advisor for the local MTU ACM chapter that I am currently president of. He can attest to my ability to take leadership in a situation and get things accomplished when they need to be done.</p>	6
<p>Tyler Frankenstein Web Developer Signal Point Inc Office: (906) 553-6369</p>	<p>Colleague Tyler and I have worked together on various projects. We both had a software engineering class together as well as a Graphical User Interface class. We both were lab coaches as well. Tyler currently runs his own web development business and times I help him test various things.</p>	5
